PHD-HM5 Firmware Upgrade Instructions

Firmware Ver. 1.8.0:

(1) Make sure the USB Flash stick is larger than 128MB size.

(2) Unzip "upgrade.dat_1.8.zip" file and copy "upgrade.dat_1.8.0" binary file into root directory of USB Flash stick.

(3) Insert USB Flash stick to one USB port of PHD-HM5 and power on.

(4) Select "SETUP" menu and navigate to "Software Version" section. Select "Upgrade" to upgrade firmware.

(5) After detecting correct firmware, press "OK" key on remote control to confirm and proceed the upgrade.

(6) PHD-HM5 will decompress the file first and ask OK to upgrade this new version.

(7) Depending on file size, it usually takes about several minutes to complete the firmware uploading.

(8) PHD-HM5 will ask re-boot after completion.
