

Model: PHD-208

## Features:

### ■ Best-in-class Full HD 1080p Video Scaling and Enhancement.

Professional-end video 1080p up-scaling enhancement makes the best companion tuner set-top box for HD Projectors, Large screen HDTVs, Conference room and Home Theater TVs!.

### ■ Most Advanced ATSC/QAM HD Tuner Receiver in the market!

New generation and superior RF tuner reception. PHD-208 can pick up most of OTA (ATSC) and cable QAM/NTSC channels in your area!

### ■ Feature-rich, Powerful Multimedia Control System.

Dual channel-scan database. Keep both OTA (ATSC) and cable (QAM/NTSC) channel information without re-scanning.

Virtual surrounding sound and audio adjustments.

MP3 audio and JPEG image playback via USB port.

Custom Aspect Ratio adjustment. Give users full power on video over-scan control and re-cover 100% HD picture content on your screen.
